

Executive Director, NPIC

2 May 1961

Director, NPIC

Telephone Call This Date From Walter Elder Regarding
the Pattern of Security to be Observed by NPIC

1. Elder states that he has a letter from Shef Edwards directed to General Cabell asking him to arbitrate on the difference of views between himself and Mr. Amory regarding security procedures at NPIC.

2. I reviewed for Elder the memorandum on this subject and discussions with Amory to date. I indicated our own disagreement with Mr. Edwards' stand on NPIC security and described to him the plan we proposed to Amory for preparing the basic security document here along the lines of how we have operated security-wise for the past five years which would then be amended by Security to create a hybrid that we all could live with. Elder agrees with this approach. He doesn't feel that Cabell should get involved in this subject. He is shooting the correspondence back to Edwards recommending that he and Amory get together to resolve the difference.
